Travel Insurance Is Required

International travel involves risks that cannot always be predicted. Every traveler is expected to carry comprehensive travel insurance for the full journey.

Recommended Coverage

- Emergency medical care
- Emergency evacuation and repatriation
- Trip interruption and delay
- Lost, delayed, or damaged baggage
- Cancellation coverage that matches your personal needs

When to Purchase

Purchase coverage soon after paying your deposit. Some benefits may only be available when insurance is purchased within a limited period after the first trip payment.

What to Carry

- A digital and printed copy of your policy
- Emergency assistance phone numbers
- Policy and claim numbers
- Instructions for seeking treatment or filing a claim

Proof of Coverage

iTravel for Culture may request proof of insurance before departure. Travelers remain responsible for understanding their own policy, exclusions, and limits.

Separate Purchase

Travel insurance is not included in your iTravel package. The independent Travel Concierge partner may be able to explain available options, but the final policy choice is yours.
